About ICEhighwaysjobs

ICEhighwaysjobs is the newly launched online recruitment site from the Institution of Civil Engineers (ICE).

ICEhighwaysjobs is part of the ICErecruit family of civil engineering job sites, developed by the same team responsible for launching the successful ICErecruit job service.

We are specialists in online recruitment - able to bring you the same level of independent and technical expertise, online know-how and cost effective recruitment packages you have learnt to expect from us.

Recruiters

For recruiters, ICEhighwaysjobs offers you the ability to post jobs within dedicated job sectors – which in turn allows candidates the ability to tailor their job search criteria, enabling them to increase their chances of finding the right job.

This can translate into higher job views and job application rates for each job you post on ICEhighwaysjobs.

With over 10 specialist sectors dedicated to the most technical detail of your jobs, your potential applicant base is ready and waiting – and with branded jobs as standard, we advertise your jobs on our site as an inclusive part of your package. So, no hidden costs and no hidden extras.

Never before has it been so easy and cost effective to advertise, recruit and manage difficult-to-fill positions – all online.

What makes us cost effective?

- Access to over 80,000 ICE members at any one time
- Over 5,000 student members of ICE graduate every year and search our site for their first job
- Over 10,000 Highways and Transport searches to ICErecruit each month
- Rapidly expanding candidate base, growth doubling every month
- Ability to drive candidates back to your recruitment site
- Email alert settings allow candidates to receive only the jobs relevant to them in their sector
- We are focused on making your recruitment advertising campaign work harder for you - talk to us to learn more.
